

Donate PC Equipment

CARE needs your old P3 or P4 PCs and laptops, monitors, peripherals and networking equipment to help us meet the urgent need for PCs in schools and colleges throughout Ghana. CARE has provided hundreds of refurbished computers to schools so far in Ghana, but we need thousands more to help bridge the global digital divide.

CARE is a Ghana based NGO. We ask for a £10 donation for each PC you donate to help us to cover our costs.

Please call us now to find out how you can donate your 'redundant' equipment, our contact details can be found on the [Contact Us](#) page.
